

The Needs Assessment Process:

This report is a compilation of data from the New York State Department of Health and other State agencies, county health departments, and local agencies, as well as existing reports and documents. This needs assessment report documents existing efforts in the area to promote perinatal health, identifies unmet needs and gaps in services, and outlines suggested action plans to guide strategic planning and activities of Community Cradle to promote the health of mothers, babies and families. This report is submitted to the Bureau of Women's Health, NYSDOH in partial fulfillment of contractual obligations pertaining to Contract Number: C-021361.

Distribution of the report is community-wide; the report can be accessed online at www.communitycradle.org.
